ACTUARIAL SOFTWARE DEVELOPER

The Opportunity

As our firm continues to grow, we seek an Actuarial Software Developer to help develop and enhance our in-house actuarial software to provide excellent services to our clients.

Responsibilities

- Design & develop in-house actuarial models
- Develop MS Office Add-ins to automate actuarial processes
- Develop interfaces between actuarial models, integrating them into a comprehensive framework
- Provide software support & solutions

Requirements

- Qualification: Bachelor's Degree in Computer Science or equivalent
- At least 2 years' working experience in software development
- Proficient with VBA, C++, Visual Basic, .Net Framework and expertise in Microsoft Visual Studio
- Excellent knowledge of Excel, Word and experience with office Add-in development
- Strong analytical and communication skills, team player and fast learner
- Actuarial background will be an added advantage

If this position interests you, write to us at **careers@jpwall.com** (subject heading: "ASD Application") and include your CV and cover letter together with your photograph. Do also include a short note on why you believe you would be the perfect candidate for us!

Note that only shortlisted candidates will be contacted and invited for an interview. If you do not hear from us after 2 weeks, you may assume that your application has not been successful.

About JPWALL
